

Introducing the Evolution of Chesapeake's Unclaimed Property Compliance Software

Chesapeake System Solutions, Inc.
announces the new release of its Unclaimed
Property Compliance System –
UPCS® Gen-III.

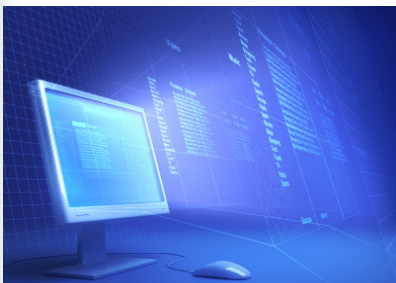

UPCS® automates the collection, tracking, management and reporting of more than 100 types of unclaimed property. UPCS automates owner search-letter generation and follow-up. In addition, UPCS produces annual unclaimed property reports and maintains audit trails to document compliance with regulations. UPCS also provides tools to help identify duplicate payments, bookkeeping errors and state-approved exemptions, thereby ensuring unclaimed property payments are as low and as accurate as possible.

UPCS GEN-III FEATURES

UPCS GEN-III has been completely redesigned from the ground up to provide a much more enhanced user experience. UPCS Gen-III will provide enhanced system functionality and usability based upon the feedback we have received over the past several years from our UPCS users. New enhancements and functionality include:

- Enhanced security featuring user-defined data encryption/masking capabilities and increased data level restrictions.
- Streamlined look and feel of the graphical user interface.
- Addition of charts and graphs summarizing unclaimed property liabilities, activities, and schedules.
- Built-in scheduling tool for imports, search letters, state reports, updates, and standard/custom reports.
- Reporting capability for Canadian provinces.
- Enhanced custom report designer.
- Addition of standard report templates for commonly desired reports..
- Ability to attach documents to property and owner records.
- Increased number of user-defined custom fields for property and owner records.
- Automatic identification and processing of state exemptions.
- Automation of state-allowed deductions.
- Designed in the latest Microsoft® .NET technology, which will allow for multiple deployment options, including Web-based access.
